

Mrs. Christia Alexandrou holds a bachelor degree in Classical Studies from the University of Cyprus and top graduate and a Master's degree in Environmental Education/Education for Sustainable Development from Frederick University.

She started her career as a Customer Service Representative at Regus Nicosia in 2012. She, then, worked at the Cyprus Energy Agency, as an energy education and training officer. She was responsible for the development and implementation of training seminars, educational programmes, conferences and other events. She gained a lot of experience in managing EU co-funded projects. She was also involved in developing and implementing educational material and activities addressed to students.

She joined the workforce of OEB on July 2017, as an Assistant Officer of the Research, Training and European Programmes Department and the Energy & Environment Division.
