

PELAGOS: Promoting innovative nEtworks and cLusters for mArine renewable energy synerGies in mediterranean cOasts and iSlands

Workshop on the promotion of Blue Energy in Cyprus

20th September 2018, Nicosia, Cyprus

University of Cyprus

Workshop on Spatial planning, Coastal Zone management and social acceptance of MRE

Accelerate the development of Marine Renewable Energy (MRE) sector in the Mediterranean sea by promoting transnational synergies and innovative networks across its value chain

MRE value chain :

A Transnational Blue Energy Cluster

3

The Major MRE Sources

Offshore Wind Energy

Wave Energy

Current Energy

Ocean Thermal Energy Conversion

Offshore Solar Energy

Tidal Energy

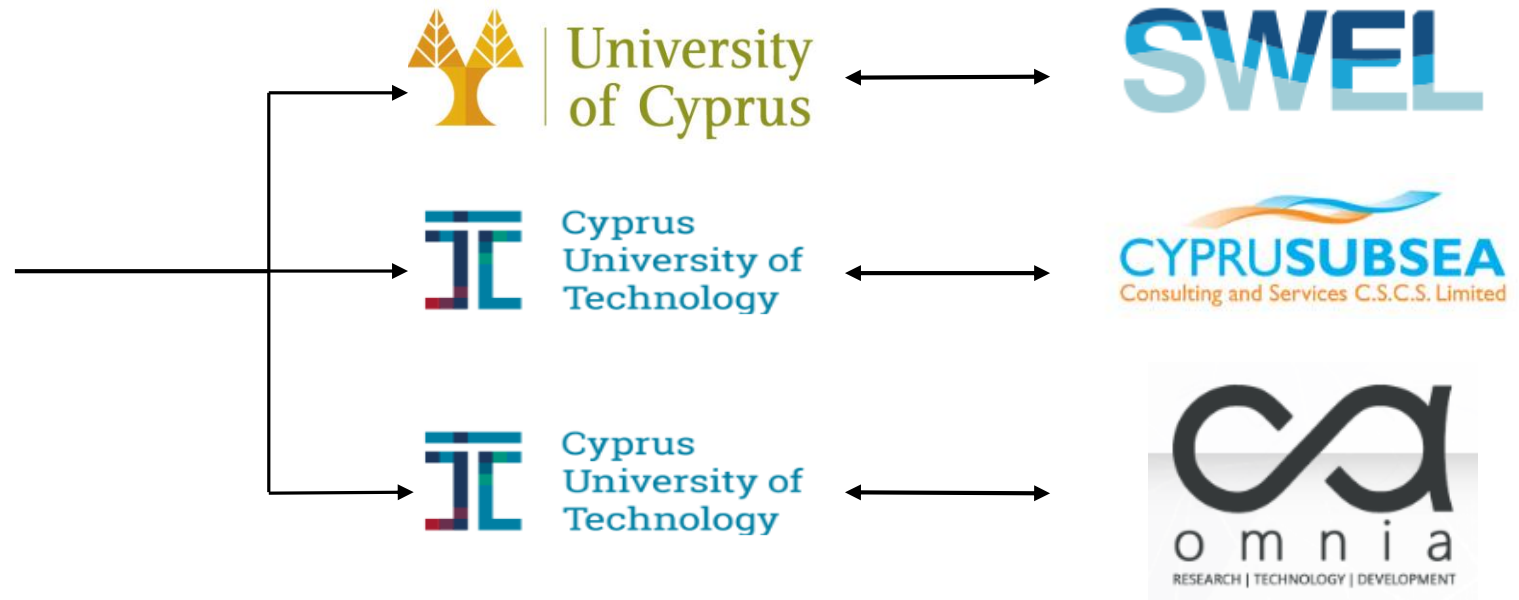

Maritime Spatial Planning, Coastal Zone management

Identify promising business opportunities, develop necessary skills and facilitate growth by bridging the gap between technology/ service providers and energy producers/ users

Services to SMEs involves :

- Innovation Profiles (15)
- Innovation Plans (6)
- Joint Research Concepts (3)
- Capacity Building Seminars (3)
- Dedicated Workshops (2)
- Networking Events (B2B)
- Study Visits (3)

Project Actions – Highlights

Project Actions – Services to SMEs

After the completion of the project:

The Transnational Online Platform will be maintained (www.be-cluster.eu)

-To promote companies offering innovative products and services in the MRE sector.

Markets and MRE Technology Applications Seminar – B2B Networking Event

Organized in parallel with the 6th International RESEE Conference, 1-2 November 2018, topics:

1. Offshore Wind Energy: Dr. Takvor Soukissian (Hellenic Centre for Marine Research) *(Confirmed)*
2. Offshore Wave Energy: Assoc. Prof. Jens Peter Kofoed (Aalborg University) *(Confirmed)*
3. Algae to Biofuel Dr. Polycarpus Polycarpou (Agriculture Research Institute) *(Confirmed)*
4. Offshore Solar Energy *(To be confirmed)*
