NOTE FOR THE FILE

Subject: AD674 – anti-dumping investigation into imports of steel wind towers originating in the People’s Republic of China

Non-imposition of provisional measures

On 21 October 2020, the European Commission (‘the Commission’) initiated an anti-dumping investigation concerning the imports of steel wind towers originating in the People’s Republic of China¹ on the basis of Article 5 of Regulation (EU) 2016/1036 of the European Parliament and of the Council of 8 June 2016 on protection against dumped imports from countries not members of the European Union² (‘the basic Regulation’).

Given the technical complexity of the case, the Commission has decided to continue the anti-dumping investigation and to not impose provisional measures at this stage.

This note therefore constitutes the notification to interested parties required under Article 19a(2) of the basic Regulation.
