

## **Andri Demetriadou**

Andri Demetriadou holds a Bachelor's degree in Chemistry from the Aristotle University of Thessalonica, with a dissertation on recycling of polymer waste. She then moved to United Kingdom where she studied at University of Brighton, East Sussex, and gained her first Master of Science degree in Environmental Assessment and Management. As part of her dissertation on climate change, she collaborated with the Department of Environment. She then continued her studies by obtaining a scholarship, in the Cyprus International Institute for the Environment and Public Health in association with Harvard School of Public Health, where she gained her second Master of Science degree in Environmental Health.

She has an extensive and accumulated experience of 12 years in the provision of advisory services in the area of sustainability (such as environmental, energy management, quality, health and safety, tourism management etc.) and has worked as a sustainability expert in various projects with varying levels of complexity in governmental, semi-governmental, banking and private sector. For the past years, Miss Demetriadou has served as a Manager in the Business Consulting Department of PwC Cyprus. She also has laboratory experience in chemical environmental analysis (e.g., of water, soil, food, air, waste etc.) and has participated in research programmes as scientific personnel at the beginning of her career.

Miss Demetriadou, has substantial experience in adult training as an approved trainer by the Human Resources Development Agency (through subsidized trainings by the Human Resources Development Agency and not only) in sustainability issues, covering a wide range of topics (such as environmental and energy management systems, quality, health and safety, sustainability strategy and KPI's development, development of environmental and energy management tools, process improvement and re-engineering, crisis management etc.). Since 2013, she is an approved person for providing External Services for Protection and Prevention (ΕΞΥΠΠ) by Chief Inspector of Department of Labour Inspection. She also holds a Green Belt in Lean Six Sigma methodology.

She joined OEB as the Head of Energy and Environment Department, in 2022.
