

Master class:

Artificial Intelligence for Businesses

Strategic Development of AI for Businesses

Dr. Alexiei Dingli - |World Class Consultant

Dates: 11th & 12th March 2024

From 09:00 to 17:15

HILTON Nicosia

Language – English

Artificial Intelligence is a powerful tool, but it's not a silver bullet....

This training program aims to introduce businesses to the world of AI and its potential to revolutionize their operations. The course will explore how AI can be used to enhance decision-making processes and improve customer experiences.

By attending this seminar, you will learn about different AI technologies, their applications, and how to integrate them into your businesses, to drive growth and success.

The training course will provide organizations with insights on:

- **AI and how it works?**
- **How can AI be used to solve business problems?**
- **How can AI be used to improve operational efficiency and reduce costs?**
- **How can AI be used to improve customer experience?**
- **What are the potential ethical implications of using AI?**
- **How can AI be leveraged for marketing and sales?**
- **How can AI be integrated into the business strategy and decision-making?**
- **What are the key AI applications in your industry?**
- **What skills does one need to develop and what roles will be required in the future of AI?**

Programme Leader

Dr. ALEXIEI DINGLI is a leading expert in Artificial Intelligence, currently serving as a Professor at the University of Malta. With a career spanning over 20 years, he has successfully guided companies to adopt AI technologies. His groundbreaking work has earned him accolades from prestigious organizations like the European Space Agency, the United Nations, and the World Intellectual Property Organization. He is a prolific researcher with numerous publications in top-tier journals, covering diverse topics from smart transportation systems to human-computer interaction. He has received invitations to serve as a Visiting Professor at various international institutions, a testament to his reputation as an accomplished academic. Furthermore, he is a core member of the MaltaAI task force, the body that has been entrusted with the responsibility of designing and maintaining the MaltaAI national strategy, a critical undertaking that will shape the future of the country. His work is not just theoretical but has real-world applications shaping the future of society using technology.

ZERO Cost Master Class

The training program is approved, by the Human Resource Development Authority (HRDA), as a vital importance seminar and is fully subsidized to eligible organizations that meet the HRDA criteria.

The Masterclass is addressed only to OEB's members.

A mandatory prerequisite for participating to the seminar, is the registration of the Enterprise (Employer), as well as the participant (Employee) to the "ERMIS" digital portal of Human Resource Development Authority of Cyprus (HRDA).

If you are registered to ERMIS, you can register for the program through this link <https://ermis.anad.org.cy>. **Program No. # 228302**

If you did not register to ERMIS, please complete and send us the registration form below, by 5th March 2024, and we will contact you for the way forward, with guidance on how to complete the registration.
