

Curriculum Vitae
YIANNIS KANARIS

Yiannis Kanaris is a Mechanical Engineer, a graduate of the University of Cyprus (2013), holding a Master's degree in Engineering Management from the University of Technology Sydney (UTS) (2015).

His professional career began in 2015 at Scaffolding Solutions, where he took on the role of Health & Safety Officer. In December 2016, he joined the Cyprus Energy Agency as an expert in energy management, energy efficiency upgrades, and energy-saving measures for both the public and private sectors, through local action plans and co-financed European projects. In 2019, he pursued a new professional challenge, joining Smyrillis Trading Co. Ltd, where he specialized in the study, installation, and maintenance of robotic equipment for livestock units. Since February 2022, he has been serving as an Officer in the Energy & Environment Department at the Cyprus Employers & Industrialists Federation (OEB).

Mr. Kanaris holds several specialized certifications, including:

- Certified Passive House Designer, accredited by the Passive House Institute.
- Infrared Thermography Certification, awarded by the Infrasppection Institute.
- Certified Expert in the Measurement, Management, and Inventory of Greenhouse Gas Emissions (ISO 14064-1, ISO 14064-2).

His career is marked by continuous professional development in the fields of energy, environmental management, and technological innovation.
