

2026 | PLANETech Week

October 18–22, 2026 // Israel

PLANETech Week is Israel's annual ecosystem week for planet technologies. It brings together startups, investors, corporations, policymakers, researchers, and ecosystem builders from Israel and around the world to explore the technologies shaping the future of our planet.

Why Attend?

Throughout the week, participants will experience Israel's innovation ecosystem firsthand through curated events, site visits, thought leadership sessions, and meaningful connections across sectors including energy, infrastructure, industry, materials, food systems, mobility, water, and more.

A week of breakthrough technologies, new partnerships, and opportunities to collaborate and scale innovation.

What Happens During the Week?

-  **Ecosystem Events**
Featuring thematic sessions, workshops, and discussions on technologies and trends shaping
-  **Site Visits & Tours**
Exclusive access to leading Israeli startups and innovation hubs
-  **Workshops & Roundtables**
Focused on innovation, collaboration, and scaling solutions
-  **Networking Events**
Connecting startups, investors, corporates, and ecosystem leaders from around the world
-  **Main Event**
Bringing together global and local ecosystem leaders to showcase breakthrough technologies and explore the partnerships and opportunities shaping the future of our planet
